Table 19-B

(continuation)

Chronicle C₃ on GCD, Chronicle C₂ years A.D. 1,053-year back- on the GCD, ward shift.

The 1,000-year shift is due 333-year shift to writing some dates as follows: For example, 1st c. since Christ = X.I c. Letter X was originally abbreviation of name (which was forgotten afterwards), and 11th c. obtained upon formally decoding "X.1 c." Similarly, "100th year since Jesus = I. 100 th year = 1100 year,because letter I also means one thousand. Eventually. dates were shifted by 1,000 years

vears A.D.

Chronicle C₁ on GCD, years A.D. Distorted original. No Chronicle shift. has not vet been shifted backbut alwards. ready contains a few duplicates

Chronicle C_0 on GCD, years A.D. Original. No shift. Column contains part of modern book", and serves original chronicles C_2 . C₃ and C₄ shifted backwards. torical data earlier than 10th c. are almost absent
